Subject: PSD and biomass

Scott, Vera, Cheryl, Nora and Brian,

In anticipation of our meeting/call next Tuesday, May 14th at 11 AM in NC with our member companies, we are providing you materials that make the policy and legal case for excluding biomass from PSD regulation. These materials have been shared with the Agency before but thought it important to put them in one place. At the outset, it would be good to understand where you are in the rulemaking process since it's been a while since we last met in November.

Nora and Brian – We hope this call fits on your calendar since it has been difficult to schedule a meeting with you in the last month. The call in number will be: [REDACTED]. Will this work for you?

If you have questions on the documents please let us know or raise them on the 14th. Thanks and we look forward to good exchange.

TIMOTHY HUNT
